All,

Here are the results of the 2013 R-O phone survey. Contrary to original recollection, the results do show that 90% of recipients were using the system a year later. Only 10% had discontinued service.

Subject: Phase I GWMA Well Sampling Survey Results

All,

In response to the question about number of households above the drinking water standard who participated in GWMA's Sampling Survey , here are the results from the 2014 (Phase 1):

172 participants;

Ca. 16% above 10 mg/L

Full results to be provided. Please share with those I've missed. Thanks.

Lisa
